

Take Control of Your Vision Care Today!

Introducing.....Advanced Vision Plan

Exclusively Through The Offices of...

Olathe Family Vision & Windmill Eye Associates

Do you want quality eye care without a vision plan?
Are you tired of the “lose it or use it” yearly vision plan requirements?
Do you hate having to wait to be “eligible” when you need help now?

If you have a vision plan....

Do you wish you could give your plan benefits to a family member or friend?

Would you like products and services above what your plan delivers?

Do you know you have “out of network” money available from your plan?

Advanced Vision Plan or AVP is the solution to taking control of your vision needs

How it works.....You determine how much you would like debited for AVP from your account on a monthly basis. We will bank that monthly into your AVP account at our offices, giving you a credit balance. This balance is fully refundable to you at any time. Unlike insurance premiums this amount will never expire and carries over year to year. You can decide who will be able to use your AVP money - family, friends or neighbors. Any credit you spend is available for reimbursement through cafeteria plans as it is after tax money.

We will provide:

- Top quality vision, contact lens and medical eye services
- High quality fashion optical frames with our exclusive two-year warranty
- Quality lenses that best fits *your* needs and prescription
- 20% off of any and all materials or services from our offices
- Monthly statements of your account

You will decide;

- When you want to come to our office - with no limitation on eligibility
- What service or materials you desire with 20% savings on everything, every day.
